

Kindersley Transport Ltd, a member of Siemens Transportation Group Inc., requires a Central Dispatch – Truckload Planner for their office in Saskatoon.

### **Qualifications**

- A minimum of 5 years operational experience in the FTL Transportation Industry
- Capable of multi-tasking and exceptional problem solving skills
- The ability to retain information, statistics, and detail
- Strong communication skills both written and oral
- Good interpersonal skills - allowing people to understand the big picture and getting your point across
- An excellent understanding of Highway Regulations, Transportation Corridors, and the correlation of time and distance
- Knowledge of hours and service and the influence of human behaviour and biorhythmia on operations

### **Responsibilities**

- Monitor, forecast, and coordinate freight movements and customer service expectations across three companies and North America
- Analyze the fluidity of the system and formulate corrective action and contingencies to ensure maximum customer service
- Evaluate, predict, and provide direction to accommodate the maximum operational capacity 24, 48, and 72 hours out to ever changing customer demands
- Maximize the utilization and revenue generation from the fleets asset base
- Ensuring that customer loads are assigned to the suitable equipment and manpower realizing the most efficient operating cost and financial yield/return
- Formulate observations/trends and recommend operational strategies to improve the overall performance of the fleet and customer service
- Work closely with the equipment coordinator and the operational groups to meet the demands of both internal and external customers
